

# Prayer for Serenity

God grant me  
the serenity  
to accept the things  
I cannot change,  
the courage to change  
the things I can,  
and the wisdom  
to know the difference.

## Our mission

As a Catholic healthcare service, our mission is to bring God's love to those in need through the healing ministry of Jesus. We are especially committed to supporting people who are poor and vulnerable.

## Our vision

We lead through research-driven, excellent and compassionate care.

Coming into hospital is a unique experience for each of us. It can be a time of anxiety and uncertainty and can evoke deep questions, strong reactions and emotions. Thoughts, persistent worries and interpersonal issues have a significant effect on a person's health. Every person has an individual way of finding connection, meaning and purpose – an inner world or personal spirituality.

*When in hospital, you may find yourself thinking deeply about your life and what is important to you.*

## Being cared for in a Catholic hospital

At St Vincent's Private Hospital Brisbane, we faithfully reflect the healing ministry of Jesus.

We provide holistic and integrated support for the spiritual, emotional and physical needs of every person.

The Code of Ethical Standards for Catholic Health Care and the principle of deep respect for human life and dignity underpins our relationships, choices, discernment and decision-making.

We are alert to God's presence in vulnerability and illness, in relationships of family and friends, in everyday experiences and in the calm atmosphere of our Hospital.

Our Catholic identity and Christian tradition of affirming life, promoting justice and offering hope are expressed in religious symbols, celebrations and spaces set aside for prayer and reflection.

We are an inclusive community of people who are sensitive to and honour the values, beliefs and faith traditions of others.

## Our Values

Our four core values are compassion, justice, integrity and excellence.

## Spiritual Care

An integrated and holistic approach to spiritual care concerns the wellbeing of the whole person. Through therapeutic and supportive processes, spiritual care facilitates resilience, empowerment and healing.

## Spiritual Care Service
